

Please amend the following claims:

A₂ 1. (amended) A system for determining a coordinate set for visual depiction onto a computer monitor of a process color having at least one spot color applied to it, said system comprising:

means for defining the process color into process color components and percentage values;

means for defining the at least one spot color into spot color components and percentage values;

means for converting said process color components and their percentage values into a coordinate set values for visual depiction;

means for determining said coordinate set values of said at least one spot color components;

means for applying percentages to said coordinate set of values of said at least one spot color components according to said percentage values for said at least one spot color components;

means for determining a value for said percentages of said at least one spot color components layered onto said coordinate set of values converted from said process color components; and

means for converting said determined value for said percentages of said at least one spot color components layered onto said coordinate set of values converted from said process color components into said coordinate set.

A₃ 2. (amended) A system for visually depicting a document having at least one spot color applied onto a document process color on a computer monitor screen, said system comprising:

means for defining the document process color;

means for defining each of at least one spot colors to be applied onto the document process color;

means for applying shade values to each of said document process color;

means for applying shade values to each of said at least one spot colors;
